Report Description

Based on the mandatory selections of Location and Expiration Cut-off Date, this report will produce a detail report showing facilities that have at least one unit on the 2015 GPRA Renewals Baseline that has an expiration date greater than the expiration cut-off date specified by the user. For facilities meeting this criteria, ALL of the units for that facility will be shown in the detail report, even if that unit has been accomplished or the expiration date has not passed. The effective date will show the actual date of the OP205 or PC205 event. If there is no OP205 or PC205 event, then it will show the actual date of the OP200 or PC200 event. Finally, if there is no OP200 or PC200 event, then it will show the effective date of the legal/operating status (Unit). Whichever date is shown will be indicated in parentheses.
